SUMMARY

Senior Business Transformation Analyst with extensive experience leading and optimizing large-scale projects for process efficiency and business growth. Proven track record reducing turnaround time by 30% through process re-engineering and delivering actionable insights via data analysis and visualization.

SKILLS

Languages: SQL, Python, HTML, JavaScript

Databases: Oracle

Frameworks:

Cloud / Tools: Microsoft Excel, Tableau, Power BI, MS Word, MS Suite, Outlook, Microsoft Visio,

EXPERIENCE

Senior Business Transformation Analyst · Verifone

Mar 2025 – Present

- Assisted with testing/validation needs including data gathering, analysis, validation and sign off by leading UAT and rollout gates, validating outcomes with test cases and transaction logs, and coordinating defect triage to production sign-off.
- Served as a liaison between business and technology teams by aligning stakeholders across product, sales, operations, and legal/compliance, shaping data visibility policies, and communicating release impacts.
- Participated in developing and delivering training programs for current and prospective users by building and maintaining operational dashboards in Power BI to monitor site health and rollout readiness, enabling users to interpret data and improve processes.
- Performed solution audits and resolved discrepancies by coordinating system integration testing and UAT, aligning outputs with business requirements to reduce post-launch defects.
- Prioritized between legacy operational needs and future technology needs by leading agile practices, reducing development time and ensuring smooth operations post-implementation.

Business Analyst · American Express (Amex)

Feb 2024 – Feb 2025

- Led a process re-engineering project within the platform enhancement initiative, applying process improvement methodologies to streamline mortgage application workflows and reduce turnaround time by 30%
- Conducted feasibility and gap analysis to drive project decisions, enhancing processing speed by 20% through business transformation strategies
- Implemented a Requirement Traceability Matrix (RTM) for the Digital Mortgage platform, aligning deliverables with project goals to enhance accountability and support change management
- Collaborated with cross-functional teams including design, development, and QA using Jira to streamline functional requirements and leverage user stories, achieving a 25% reduction in project completion time
- Performed data analysis using SQL and Excel, leveraging Power BI and Tableau for data visualization to deliver insights and improve mortgage processing efficiency by 20%, increasing customer satisfaction by 15%
- Coordinated system integration testing and user acceptance testing (UAT) for the digital mortgage platform enhancement, aligning outputs with business requirements to reduce post-launch defects by 20%

Business Analyst · HSBC

Jan 2019 – May 2022

- Led agile practices to enhance a mobile banking app, achieving a 20% reduction in development time through iterative sprints, supporting lean project management and continuous stakeholder feedback
- Utilized process improvement and change management techniques, leveraging UML diagrams with MS Visio to streamline workflows and achieve a 15% increase in efficiency
- Optimized user story management with Jira to enhance team effectiveness, contributing to captured project deliverables and timely completion across agile frameworks
- Managed stakeholder relationships to create comprehensive KPI reports and metrics for a mobile banking app enhancement, resulting in a 20% increase in funding and resource allocation

Business Analyst · Myntra

Dec 2015 – Dec 2018

- Led business analysis and requirements gathering, reducing scope changes by 25% to optimize project outcomes
- Developed the business requirement document (BRD) with detailed use cases for last-mile delivery optimization, reducing scope gaps by 25% and accelerating project delivery by 15%

- Managed change management initiatives including risk analysis with cross-functional teams, enhancing project transition success through effective stakeholder communication and training
