## SUMMARY

Senior Business Transformation Analyst with extensive experience leading and optimizing large-scale projects for process efficiency and business growth. Proven track record reducing turnaround time by 30% through process re-engineering and delivering actionable insights via data analysis and visualization.

## SKILLS

**Languages:** SQL, Python, HTML, JavaScript

**Databases:** Oracle

**Frameworks:**

**Cloud / Tools:** Microsoft Excel, Tableau, Power BI, MS Word, MS Suite, Outlook, Microsoft Visio,

## EXPERIENCE

**Senior Business Transformation Analyst** · Verifone

Mar 2025 – Present

- Prepared routine financial analysis and forecasting using SQL, Excel, Power BI, and Tableau to identify potential funding and performance risks, supporting program managers and sponsors.
- Prepared financial reports and dashboards in Excel and Power BI to support contract requirements, sponsor reviews, and program managers, ensuring alignment with funding projections.
- Collaborated with stakeholders to develop and manage resource allocation and KPI reports, providing leadership and support to program financial services and ensuring compliance with sponsor requirements.
- Participated in cross-functional teams to identify potential financial risks and streamline processes, reducing turnaround time and improving operational efficiency for sponsor-facing programs.

**Business Analyst** · American Express (Amex)

Feb 2024 – Feb 2025

- Led a process re-engineering project within the platform enhancement initiative, applying process improvement methodologies to streamline mortgage application workflows and reduce turnaround time by 30%
- Conducted feasibility and gap analysis to drive project decisions, enhancing processing speed by 20% through business transformation strategies
- Implemented a Requirement Traceability Matrix (RTM) for the Digital Mortgage platform, aligning deliverables with project goals to enhance accountability and support change management
- Collaborated with cross-functional teams including design, development, and QA using Jira to streamline functional requirements and leverage user stories, achieving a 25% reduction in project completion time
- Performed data analysis using SQL and Excel, leveraging Power BI and Tableau for data visualization to deliver insights and improve mortgage processing efficiency by 20%, increasing customer satisfaction by 15%
- Coordinated system integration testing and user acceptance testing (UAT) for the digital mortgage platform enhancement, aligning outputs with business requirements to reduce post-launch defects by 20%

**Business Analyst** · HSBC

Jan 2019 – May 2022

- Led agile practices to enhance a mobile banking app, achieving a 20% reduction in development time through iterative sprints, supporting lean project management and continuous stakeholder feedback
- Utilized process improvement and change management techniques, leveraging UML diagrams with MS Visio to streamline workflows and achieve a 15% increase in efficiency
- Optimized user story management with Jira to enhance team effectiveness, contributing to captured project deliverables and timely completion across agile frameworks
- Managed stakeholder relationships to create comprehensive KPI reports and metrics for a mobile banking app enhancement, resulting in a 20% increase in funding and resource allocation

**Business Analyst** · Myntra

Dec 2015 – Dec 2018

- Led business analysis and requirements gathering, reducing scope changes by 25% to optimize project outcomes
- Developed the business requirement document (BRD) with detailed use cases for last-mile delivery optimization, reducing scope gaps by 25% and accelerating project delivery by 15%
- Managed change management initiatives including risk analysis with cross-functional teams, enhancing project transition success through effective stakeholder communication and training
